

Deer Park Community Advisory Council

Summary of April 27, 2015 Meeting

Four Tours Offered to DPCAC in Late April

Deer Park Community Advisory Council (DPCAC) tried something new for its 240th meeting! Members and guests could choose between two tours at lunchtime and two tours at dinner time, taking one each time if they wished.

Midday tours were offered by the two terminals in the group: Intercontinental Terminals Company (ITC) and Vopak Deer Park. Terminal manager Bob Pennacchi of ITC and William List of Vopak served as hosts at their plants. One evening tour was held at the Lubrizol Deer Park plant, where members of the plant's young engineers' leadership group talked about the facility and served as tour guides. The other evening tour saw Deer Park members travel to San Jacinto College Central Campus to see the Process Technology laboratories after hearing Professor Kenneth Jackson, a member of the Pasadena CAC, describe the education of future plant operators. "Tourists" found all of the tours educational.

The June 1 DPCAC meeting will focus on barge transportation on the Houston Ship Channel. Visitors are welcome. For details about the 6:00 p.m. meeting, contact facilitator Diane Sheridan at 281-326-5253 or info@deerparkcac.org.
