School

## Industry Members, Facility Representatives, and Company Information

### Clean Harbors Deer Park, LLC

*Bruce Riffel*

[www.cleanharbors.com](http://www.cleanharbors.com)

Clean Harbors is a RCRA and TSCA permitted incineration facility. We store and treat hazardous, non-hazardous, TSCA, and medical waste. We also provide incineration services for witness burns to the DEA, DHS, Homeland Security and various police forces.

## **Delta Companies Group**

*Frank Ingrassia*

[deltacogroup.com](http://deltacogroup.com)

Delta Companies Group is a chemical packaging and warehousing facility. Delta receives product via rail and truck and packages the material into drums, IBCs, and pails. The product is stored in warehouses, both Delta-operated and 3rd party. Product is distributed domestically and internationally.

## **The Dow Chemical Company – Deer Park**

*Jeff Garry, Jeff Lichon*

<http://www.dow.com/>

The primary products produced in the Dow Deer Park plant are acrylates, methacrylates and Primene®. These products are used in a variety of end-use applications including paints, plastics, disposable diapers, fuel additives, antioxidants, caulks and much more.

The primary products produced at Lone Star are water-based emulsions which are used in many products such as paint, adhesives, sealants and paper.

## **Evonik Oil Additives USA, Inc.**

*Jim Bentinck-Smith*

[www.evonik.com](http://www.evonik.com)

Evonik Oil Additives manufactures lubricant additives for blenders of Gear Oil, Automatic Transmission fluids, Grease, Hydraulic Fluids and Engine Oils.

## **GEO Specialty Chemicals, Inc.**

*Chris Miller*

[www.geosc.com](http://www.geosc.com)

The GEO Specialty Chemicals, Deer Park Facility is a specialty chemicals manufacturing site producing three primary products: Glycine, DAXAD® dispersing agents, and poly-aluminum chloride (PAC) water treatment chemicals. Glycine is the simplest, naturally occurring amino acid. It is used in a variety of applications in the food industry and in pet foods as a flavor enhancer. It also has several pharmaceutical, agricultural, and personal care applications. DAXAD® is a Naphthalene Sulfonate dispersant agent used in a number of industries. Applications include concrete mixes, wallboard, rubber manufacturing, leather dyes, paper and paint manufacturing, and agricultural products. PAC products are water treatment chemicals used for the treatment of potable water. The proven benefits of PAC include reducing overall water treatment costs when compared to traditional programs and effectively removing water turbidity, color, heavy metals and trace organic compounds.

## **Hexion, Inc.**

*Marlene Mercado*

[www.hexion.com](http://www.hexion.com)

Products produced at Hexion Deer Park include Bisphenol Acetone (BPA) and various grades of liquid and solid epoxy resin. BPA's primary use is as a feedstock for epoxy resin and polycarbonate production. Primary uses for epoxy resin include various protective coatings applications in the construction, automotive and electronics industries and as a binder in a wide range of composite applications.

## **Intercontinental Terminals Company (ITC)**

*David Wascome*

[www.ityerm.com](http://www.ityerm.com)

Intercontinental Terminals Company (ITC) is a for-hire bulk storage facility located on the Houston Ship Channel in Deer Park, Texas. The facility covers 265 acres and has a total storage capacity of over 13,058,136 barrels in 242 storage tanks. The facility is served by vessel, barge, rail, tank truck, and pipeline modes.

## **The Lubrizol Corporation**

*Tanya Travis*

*Chris Hext*

[www.lubrizol.com](http://www.lubrizol.com)

Lubrizol produces specialty chemicals (lubricant additives) used in motor oils, gear oils, automatic transmission fluids and greases to improve their performance. Our customers include Castrol, Chevron, Citgo, ConocoPhillips, ExxonMobil, Imperial Oil, Mobil, Shell, Total, Valvoline and many, many others. When you go into your local Auto Zone or other auto supply store and look at the many rows of motor oils, automatic transmission fluids, gear oils and greases, our products are in a good many of the bottles.

## **Oxy Vinyls – Deer Park PVC/Caustic Plant**

*Scott Halbrooks*

## **Oxy Vinyls – DP VCM**

*John Abel*

## **Oxy Vinyls Battleground C/A Cogen**

*Matt Sexton*

## **Oxy Vinyls Houston Operations**

*Paul Thomas*

[www.oxy.com](http://www.oxy.com)

OxyVinyls manufactures polyvinyl chloride (PVC) resins, vinyl chloride monomer (VCM) and its precursor ethylene dichloride (EDC). Based on data from industry trade publications, OxyVinyls is the largest VCM producer and the third-largest PVC supplier in the United States. PVC resins are used in a wide variety of products, including piping, construction materials (e.g., vinyl siding, windows and doors, fences and decks), medical applications, electrical insulation and automotive products. OxyVinyls also licenses technology for the production of EDC and VCM.

## **Shell Deer Park – Chemical Plant & Refinery**

*Michelle Roberson, Chemicals*

*Thor Nygaard, Refining*

*Amanda Accardo*

[shell.com](http://shell.com)

Shell Deer Park Manufacturing Site is a refinery and chemical plant that produces fuels and base chemicals that go into thousands of consumer products.

## **TM Deer Park Services LP (was Texas Molecular)**

*Frank Marine*

[texasmolecular.com](http://texasmolecular.com)
