ADDITIONAL COMMENTS																									
Clean Harbors	All: Incinerate.																								
Dow	Benzene, Toluene, Ethylbenzene reported in small quantities in EI.																								
Hexion	Benzene: Except for 3 lbs/yr in EI, the trace amount remains in the product																								
ITC	All: Shipped/received by marine, land, and pipeline. Do not own any transportation equipment.																								
Lubrizol	Benzene: Trace amounts of a few pounds in EI. Toluene: Some in intermediates used in blending. No pure toluene on site. Answer based on TRI reporting.																								
"	Ethylbenzene and Xylenes: Not enough to report on TRI. Present in some materials used in blending. No pure EB or Xylenes on site.																								
Shell	Ethylbenzene: Present in other chemicals on site.																								
Tx Molecular	All: Component of waste received from offsite generators																								
Valvoline	Toluene: Used as flush for lab equipment.																								
Vopak	All: Load and unload product containing the chemical into various modes of transport.																								
EI= TCEQ annual Air Emissions Inventory																									
TRI= EPA Toxics Release Inventory
