SH 225 and SH 146 Construction and Maintenance

TxDOT discussed projects underway and planned for SH 225 and SH 146, including connectors to the BW8 Bridge. Roger Gonzalez of Entech Engineering discussed the Planning and Environmental Linkages (PEL) Study for SH 225, needs identified and conceptual alternatives to meet the identified needs. An online poll was taken during the meeting so that attendees could choose which alternative they felt would best meet local needs.

Jamal Elahi of Texas Department of Transportation (TxDOT) discussed the current SH 146 projects and timelines. Projects include: Spencer Highway to Red Bluff Road, South of Red Bluff Road to North of SH 96, FM 518 to Dickinson Bayou.

DPCAC's August 28th meeting topic is Roads and Traffic in Deer Park. Visitors are welcome! For an invitation, contact info@deerparkcac.org.
